

Unlock Your Spot in the 2026 Direct Access Lottery

Choose your energy supplier to unlock cost savings, flexibility, and reduced risk.

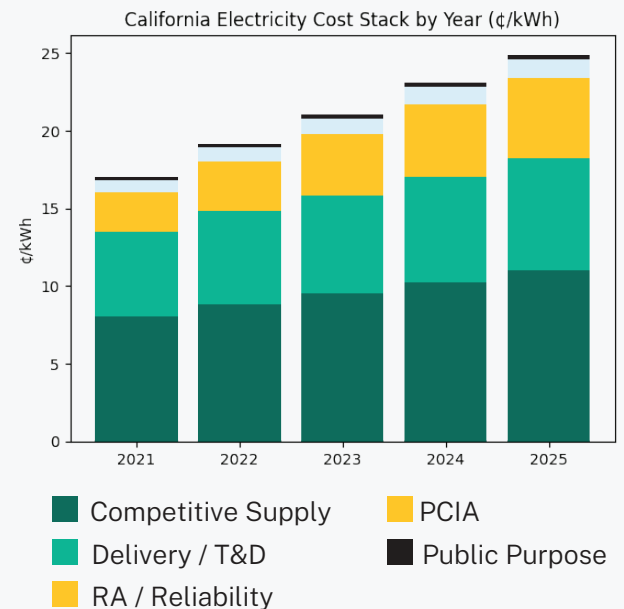

Direct Access 101

Direct Access (DA) allows non-residential customers to purchase electricity from a licensed Energy Service Provider (ESP) instead of the utility, while the utility continues to deliver the power.

What's in it For You

- ✔ **Lower Energy Costs**
 Access competitive supply options that may reduce overall energy costs.
- ✔ **More Flexibility**
 Choose customized pricing structures and contract strategies aligned with your risk tolerance.
- ✔ **Price Transparency**
 Gain visibility into energy components and avoid bundled utility pricing.

Only 5 Days to Enroll

If you miss the June 8-12 window, you must wait an entire year to apply again. Capacity is limited, and access is not guaranteed.

Don't Miss Your **Once-A-Year Opportunity**

Expertise & Insight At Your Side

How Direct Access Works

The Lottery Process

- Enrollment is limited and only available through an annual lottery held each June.
- Businesses must submit a 6-Month Notice during a 5-day window (June 8–12, 2026) to be entered.

What Happens After You Apply

- Submissions are entered into a randomized lottery.
- Customers are either accepted or placed on a waitlist.
- Accepted customers begin service as early as January 2027.

How We Work

Evaluate Eligibility & Opportunity

We analyze your energy usage and operations to determine your eligibility, potential savings, risk profile, and fit within your broader energy strategy.

Lottery Enrollment Strategy

We manage the entire process, from submitting your 6-month notice to handling documentation, compliance, and strategic positioning for the lottery.

Procurement & Ongoing Support

Once enrolled, we develop a tailored procurement strategy, manage supplier relationships, and monitor performance and market conditions.
